

**Amendments to the Drawings**

The attached sheets of drawings include changes to figures 3, 4, 5A and 5B and a new figure 3A. These amended drawings are attached.

Figure 3 has been amended to present in the form of a labeled representation the previous descriptive legends. These are now numbered 100 and 102. Labels for items 51, 64, 76, and 120 have also been added. The titles of these labels are reproduced below for ease of understanding the changes.

Figure 4 has been amended to add a label for item 108.

Figure 5A has been amended to add labels for items 51 and 120.

Figure 5B has been amended to add labels for items 64, 104 and 106.

New figure 3A has been added to illustrate an alternate embodiment of the invention. This figure is similar to figure 3 with the change that the flow direction is reversed. The components have been revised to indicate this change.

**Drawing labels:**

- 50. Manual Flow Regulating and Shut-off Valve
- 51. Manual Valve Handle
- 52. Differential Pressure-Regulating Valve
- 54. Upstream Pressure Tap
- 55. Intermediate Pressure Tap
- 56. Downstream Pressure Tap
- 58. Temperature Sensor
- 60. Sample Collection Port
- 62. Control Section Housing
- 64. Control Circuit
- 66. Data Port
- 70. Differential Pressure Regulating Valve Flow Area
- 72 Differential Pressure Regulating Valve Flap
- 74. Differential Pressure Adjustment Valve Stem
- 76 Differential Pressure Regulating Valve Stepper Motor
- 78. Differential Pressure Regulating Valve Flap Position Sensor
- 80. Differential Pressure Regulating Valve Body and Bonnet
- 82. Wellhead Piping
- 100. Well Extraction Pipe
- 102. Pipe to Well Extraction Vacuum Source
- 106. Battery
- 108. Straight Lower Edge of the Flap
- 120. Methane Gas Extraction Constant Flow Control Wellhead Assembly
